

JOB OFFER

Radiologist (Southern Denmark)

On behalf of a client Look Abroad! is looking for several radiologists. You will work at a public hospital in the region of Southern Denmark. The position offers stable surroundings, attractive work conditions, good opportunities for professional development, a good work-life balance and a future life and career in Denmark, one of Europe's top welfare states.

Your Tasks

You will work in a highly specialized radiology department in Denmark's public healthcare sector. The radiology department works with image-guided diagnostics and therapeutic procedures ranging from ultrasound, to magnetic resonance imaging (MRI), computed tomography (CT) scan and X-rays besides many other procedures. As a radiologist, you will work closely together with medical specialists from other departments, besides radiographers and nurses.

Teamwork and patient-oriented perspective are highly appreciated in the department.

As a staff specialist, your main priority will be diagnosing and treating your patients, but you will have the opportunity of doing so much more! You will be able to participate in the training of resident doctors, research projects, conferences and training, and you will receive all the support you need to excel on a professional and personal level.

JOB OFFER

Qualifications

- A university degree in medicine from a European Union university.
- Specialized in radiology or about to finish the residency.
- Our client prefers that you have some experience and interest in breast radiology. However, candidates who are about to finish or just finished their residency in radiology will also be considered.
- Motivation for living and working abroad.
- Citizenship of a European Union member state.

Languages

You will use the Danish language at work and you will get intensive, free language training to help you reach a sufficient level before starting working in Denmark. To be able to participate in the Danish language course you will need to:

- Be available for participation in an intensive 5-months online Danish course.
- Be proficient in spoken and written English (B2 level or better).

Our offer to you

- A job in a dynamic department with professional challenges and development.
- To work with highly skilled colleagues and to give and receive feedback within the team.
- Excellent opportunities for competence development and continuous learning.
- Short communication paths with good cooperation between the department's professions and external collaborators.

JOB OFFER

- € 108.000 minimum yearly salary (including pension benefits).
- A permanent contract.
- 37 hour working week and 6 weeks paid holidays.
- A good work-life balance. You will have time to spend with your family, or to further develop your skills.
- A 5-months free, intensive online Danish language course prior to work start and a 2-weeks Danish medical language programme via Skype.
- As the language course is not compatible with a full-time job, you will receive an economical support of 1.000 €/month during the course.
- The medical authorization process will be taken care of for you.
- Assistance with the relocation to Denmark and spouse employment assistance.

How do you apply?

Please forward your application and CV in English marked "Job 1120, Radiologist" by mail to Arne Beyerholm at jobs@look-abroad.eu as soon as possible and not later than July 27th, 2020.

Please include a copy of the diplomas for your degree in medicine and your specialisation in radiology. In the case of your degree in medicine, please include a list of all exams passed and the results obtained. Feel free to include any further attachments, which you find relevant, e.g. certificates, references, etc. These should preferably be in English, but we do accept them in Spanish.

If you do not want to apply for this position, but would like us to consider your CV for other health care jobs in Denmark or Northern Europe, then feel free to forward your

JOB OFFER

CV. Forward it by sending a mail with the title “Unsolicited application”. Please include your diploma and other attachments as described in the paragraph above.

Should you have any questions, then please send an e-mail to the above-mentioned mail address.
